Student Reader of the Month for February

Andrew  year 11

What book are you reading now?
“Infinite Jest“ by David Foster Wallace

What was the last book you read?
“Lunar Park’ by Brett Easton Ellis

Why do you think reading is important or why do you like reading?
“I guess I like reading because most of the time it leads me into learning about new things (a person, place, date in history etc) and makes me envision things that myself or others may or may not ever actually experience or perform, yet still is prominent in the back of our minds. Also the ability to gain trivia from reading helps me in a semi-regular basis. I think reading is important because it helps people learn about the world and open their minds to new heights and possibilities. “
