Student Reader of the Month
for October

Christina
year 10

What book are you reading now?
“The Crane Wife”
by Patrick Ness

What was the last book you read?
“The Moth Diaries”
by Rachael Klein

Why do you think reading is important or why do you like reading?
“I like reading because it is great. It’s just a really good past time that has the added benefit of making you smarter. You get different perspectives and ideas that can change the way you think, and that's really exciting. You can learn so much about the world without having to do anything. It’s also really fun when you can discuss a book with someone else who has read it, or when you recommend a book to someone and they love it just as much as you did. It's important to read because it is very rewarding and entertaining. Another thing I like about reading is when I get really into a story and I just can't stop reading until I finish the book. I think people who don't read are missing out.”
